

COUNTING IN FRACTIONAL STEPS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
	Pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths			
		RECOGNISIN	G FRACTIONS			
recognise, find and name a half as one of two equal parts of an object, shape or quantity recognise, find and name a quarter as one of four equal parts of an object, shape or quantity	recognise, find, name and write fractions ${}^{1}/{}_{3}$, ${}^{1}/{}_{4}$, ${}^{2}/{}_{4}$ and ${}^{3}/{}_{4}$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or quantities by 10. recognise and use fractions as numbers: unit fractions and non-unit fractions with small	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)		
		denominators				
COMPARING FRACTIONS						
		compare and order unit fractions, and fractions with the same denominators		compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1	

	COMPARING DECIMALS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
			compare numbers with the	read, write, order and compare	identify the value of each digit			
			same number of decimal	numbers with up to three decimal	in numbers given to three			
			places up to two decimal	places	decimal places			
			places					
			ROUNDING INCLUDING DEC					
			round decimals with one	round decimals with two decimal places	solve problems which require			
			decimal place to the nearest	to the nearest whole number and to	answers to be rounded to			
		501111/11/51/05	whole number	one decimal place	specified degrees of accuracy			
			(INCLUDING FRACTIONS, DECIN					
	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths read and write decimal numbers as	use common factors to simplify fractions; use common multiples to express fractions in the same denomination associate a fraction with			
			recognise and write decimal equivalents of any number of tenths or hundredths	fractions (e.g. $0.71 = \frac{71}{100}$)	division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction			
				recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	(e.g. ³ / ₈)			
			recognise and write decimal equivalents to $\frac{1}{4}$; $\frac{1}{2}$; $\frac{3}{4}$	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.			

Together Everyone Achieves More

	ADDITION AND SUBTRACTION OF FRACTIONS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
		add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5} + \frac{4}{5} = \frac{6}{5}$ = $1^{1}/{5}$)	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions		
		MULTIPLICATION AND I	DIVISION OF FRACTIONS				
				multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $1/4 \times 1/2 = 1/8$) multiply one-digit numbers with up to two decimal places by whole numbers		
					divide proper fractions by whole numbers (e.g. $\frac{1}{3} \div 2 = \frac{1}{6}$)		

MULTIPLICATION AND DIVISION OF DECIMALS						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
					multiply one-digit	
					numbers with up to two	
					decimal places by whole	
					numbers	
			find the effect of dividing		multiply and divide	
			a one- or two-digit		numbers by 10, 100 and	
			number by 10 and 100,		1000 where the answers	
			identifying the value of		are up to three decimal	
			the digits in the answer as		places	
			ones, tenths and			
			hundredths			
					identify the value of each	
					digit to three decimal	
					places and multiply and	
					divide numbers by 10, 100	
					and 1000 where the	
					answers are up to three	
					decimal places	
					associate a fraction with	
					division and calculate	
					decimal fraction	
					equivalents (e.g. 0.375)	
					for a simple fraction $(a = 3/4)$	
					(e.g. ³ / ₈)	
					use written division	
					methods in cases where	
					the answer has up to two decimal places	
					uecimai piaces
